The cylinders meet the regulations regarding hydraulic cylinders:

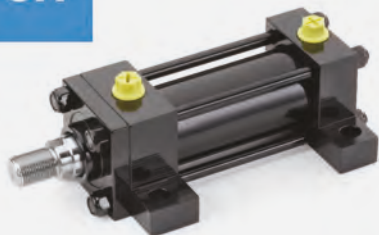

- ISO 6020/2 - DIN 24554
- ISO 6020/1
- ISO 6022

GRICES
HYDRAULIC CYLINDERS

**PRODUCTS**

Passed on from father to son, Grices is the symbol of "Made in Italy". Founded in Lecco in 1978, the company has assumed an important role in the national and international hydraulic market. For 40 years Grices has been offering its clients standard and customized cylinders, technical support, local production and hydraulic test on 100% of the products. Interchangeability with main manufacturers, components and seals kits complete the range of the proposed services.

CH

▲ Hydraulic cylinders ISO6020/2, DIN24554.

CHM

▲ Hydraulic cylinders with sensor switches ISO6020/2, DIN24554.

CHT

▲ Servocylinders with trasducer ISO6020/2, DIN24554.

CA

▲ Hydraulic cylinders ISO6020/1, also with trasducer (CAT).

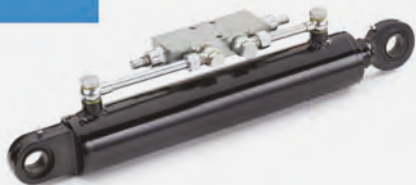

▲ Online configurator for cylinders, drawings, offers and orders.

CC

▲ Hydraulic cylinders ISO6022, also with trasducer (CCT).

CL

▲ Welded hydraulic cylinders - Bore from 40 to 350 mm.

CB

▲ Short stroke cylinders, also with sensor switches - Bore from 25 to 100mm.

KIT

▲ Components and seals kits.
