**OTHER INFORMATION**

---

**CERTIFICATION**

**PRODUCTS**

*Medium, high and very high pressure thermoplastic hoses and Ptfе for hydraulic applications, lubrication, solvents and paint spray, gas, refrigeration, chemical products and high temperature according to the main international standards SAE, ISO, EN. Swaged and reusable fittings.*

*Hoses series TS8 with Kevlar reinforcement for the connection of working pressure surey equipments up to 630 bar. Complete range of low and medium pressure tubes for oilpneumatic controls in Rilsan PA11, polyamide 12, polyamide 6, Hytrel, polyurethane, polyethylene and Ptfе. MultiMulti-tube to faciilitate the transfer of several separate pulses in the same conduction, material necessary for a rational planning of modern industrial installations.*

*Complete range of spiral tubes in Rilsan PA11, polyamide 12, polyamide 6, Hytrel and polyurethane from diameter 4 to 24mm.. Some special types are realized on particular requests.lum, sem dui volutpat dolor, a consequat nunc lacus et elit. Sed viverra velit id sollicitudin blandit amet.*

Tubi flessibili Termoplastici e Ptfе a media, alta ed altissima  
 pressione - Raccordi a pressare e recuperabili.  
*Medium, high and very high pressure flexible Thermoplastic hoses  
 and Ptfе - Swaged and reusable fittings.*

Tubi flessibili termoplastici e Ptfе a bassa pressione.  
*Thermoplastic and Ptfе low pressure flexible tubes.*
